RULES AND REGULATIONS

We do ask that especially on the second day that ALL students please refrain from using mobile phones throughout the day as this can be very distracting for other students and also please watch each piercing performed as you are there to learn watching others also and be discreet while others Pierce.

As it is a working studio we expect all students even though you know your volunteers to treat them with respect as if it is a customer.

Throughout the course you will at times be put on the spot to remember something we have said, this is done as we genuinely care that once you leave the Academy you will do things right so keep this in mind, it is not to catch anyone out, it is so that you remember.

Please don't wear Acrylics as you will never be able to perform the piercings whilst wearing gloves.

We supply everything you need for the two days.

Time keeping is a MUST.
